

Arbrux is the leading manufacturer of premium, cost effective Aerators. Floating Aerators add oxygen to water; reducing algae, discouraging water breeding insects and eliminating odor problems associated with stagnant water. In spite of our Aerators massive water movement, it's true... all you see and hear is water. Arbrux Aerators feature four spray patterns and are available in 1/2, 1, 2 & 3 horsepower models. Powerful propellers pump large volumes of water, keeping your body of water crystal clear and healthy. At Arbrux we are continually committed to providing high quality Canadian designed and manufactured products at

an affordable price, all the while providing superior customer service. To prove our Aerator is better than the rest, we back it up with a 3 year warranty. Our Aerators are also approved to CSA and UL standards as a complete unit. Having been in the business since 1979, we pride ourselves on continually testing our products and offering you state of the art Aerators that surely provide the WOW factor. We feel confident in saying after using an Arbrux Aerator; you'll be as excited about them as we are!

Cable available in 49.2' (15m) increments.  
Please note that windy areas may affect spray pattern performance.

## INTAKE SCREEN

When an optional intake screen is used with an Arbrux Aerator it will provide supplemental weed and trash protection.

## LIGHT KIT

Light Kits are an excellent addition to any aerator. To ensure you are continuing to create a dramatic effect at night, add one of our light kits to your aerator!

1 HP MIRAGE

1 HP LILY

1 HP LOTUS

1 HP BELLFLOWER
