

Arbrux is the leading manufacturer of premium and cost effective Aerators, Fountains, LED lighting and individual submersible LED lights. Our LEDs use light very effectively, with the highest performance factor—they provide optimum colour rendering while saving you energy costs! Enjoy your Fountain or Aerator into the evening hours to spectacular effect. Light up your water feature with 2, 4, 6 or 8 LED lights, in several colour options: blue, green, red, amber, and of course clear.

You can add individual submersible LED lights along your dock or shoreline to increase the visual safety factor at night. We're confident that you'll be delighted with the look of LED lighting in your water feature. Arbrux is committed to manufacturing only the highest quality Canadian designed products, at an affordable price. We are determined to give you the very best customer experience.

LED LIGHT KIT

LED Lights are mounted on the float just below the water's surface to accent your water feature.

FEATURES

- Adjustable swivel base.
- Kits available in sets of 2, 4, 6 or 8 fixtures for a total of 70 - 280 watts of lighting.
- Stainless steel housing, with float mount hardware.
- Comes with underwater quick disconnect connector.
- Available in 15m/49.2' increments.
- Each Light Kit requires 120V power.
- Available colours: red, blue, green, amber or clear.

LED SUBMERSIBLE LIGHTS

Arbrux LED submersible lights were designed for reflecting pools, ponds, or shorelines. The 35 watt LED lamp is designed with a low profile, allowing it to be placed in shallow water.

FEATURES

- Stainless steel housing.
- Adjustable swivel base.
- Each light requires 120V power source.
- Available colours: red, blue, green, amber or clear.
